# ETF Securities

## Weekly ETF Market Monitor

<sup>1</sup> Total Return (%) is calculated on a NAV-to-NAV basis with distributions re-invested on the ex-date. For cross-listed funds, published NAVs from the main listing are converted to AUD at prevailing spot rates. For ETFs that do not publish daily NAV's or have not published NAV's on Bloomberg as at the publication time, last traded price is used as a proxy for any unavailable NAVs. Total returns are quoted on a per annum basis for periods exceeding one year.

<sup>2</sup> Excludes cross-listed ETFs that do not report flows daily.

<sup>3</sup> Denotes an ETF that does not publish a daily NAV or does not have a published NAV on Bloomberg as at the publication time. Last published NAV or last traded price is used as a proxy.
